

We have a plan for your health

The TK for employed people

You don't just need a health insurance provider for the stress of the modern work-place. You need an advisor for all your health-related queries. An assistant who takes some of the pressure off you. And a trainer who is aware of your needs and who keeps you fit and healthy through everyday life. The TK offers you all of this.

We make doctor's appointments for you Getting an appointment to see your family doctor or specialist doctor can be both time-consuming and nerve-wracking. This is why we help out our insures by offering a free TK-Appointment-Service.

Advice is a phone call away: the TK-MediCall Around 100 specialist doctors from opticians to dentists are available round the clock to answer your health-related questions. These could be questions on illnesses, medicines and much more.

Where innovative meets alternative We give you the choice of high-tech medicine and therapies as well as alter-native medicines: We reimburse up to EUR 100 for this per calendar year for each insured person above the age of twelve years old.

Bonus points! It makes no difference how you work up a sweat: those who make the effort to stay healthy are rewarded by our TK-Bonusprogramm. And not just with money, but with many other healthy extras.

Excellent We always do our best with you — and we have the seal to prove it. Our excellent work is proof that we really do always go the extra mile to help you. Do you want to see it? **tk.de**, **Suchbegriff 135320**

Travel? Got to get your vaccines! We will bear the costs of all recommended vaccines as well as for malaria prophylaxis, if necessary minus the statutory additional payment for the vaccine and/or medication.

Employee membership application form
